

“EDL provides technologies and engineering to configure systems that meet special and often unique customer requirements. We listen, study, design and deliver value.”

EDL's Candy / Snack Bundling System

EDL Packaging Engineers has experience in collating and bundling candy / snack products. Packaging material savings and productivity improvements are two of the primary benefits of this type of system. They can be configured to collate multiple pack configurations or wrap pre-collated product. Packs can be wrapped in trays or trayless.

EDL CANDY / SNACK BUNDLING SYSTEM

Features of the EDL Candy / Snack Bundling System:

- *Process up to 25 plus packs per minute*
- *Can be hand fed or integrated into existing production systems*
- *Provide solutions for manufactures to bundle small to medium sized packs of products in trays or trayless.*

Benefits of EDL Candy / Snack Bundling System:

- *Packaging material savings can be cut by more than 50 %*
- *Increase productivity*
- *Produce a more durable high performance package that also looks more appealing.*

Why EDL?

EDL has over 40 years of experience designing and manufacturing shrink bundling machinery. The expertise gained and the technology developed over the years has helped us become an industry leader in innovative packaging solutions.

Bring us your application and let us apply our Innovative Solutions! Remember we listen, study, design and deliver value to our customers!

The video for these systems mentioned above and many others can be viewed via the “Login” section of the EDL website at www.edlpackaging.com. Login is: edlpackaging and the password is: clients. Please contact your EDL Area Sales Manager for further information.

EDL’s Standard Equipment

In addition to being known for delivering “special and often unique” packaging solutions, EDL also supplies a line of standard equipment. Our pre-engineered products include inline, side feed, and semi-automatic systems that can be readily applied to meet and exceed the needs of more common applications. Competitive pricing and short delivery lead times are available on all EDL standard equipment.

This month we are featuring our Inline Automatic System. EDL has enabled a customer to automatically package cabinet doors using a low density polyethylene film.

EDL’s Inline Automatic

Give our standard equipment line a try.

Learn more about our standard equipment at www.edlpackaging.com/edlproducts.html, and then select Bagged, Trayed, or Trayless products. Contact your EDL Area Sales Manager for further information.
