

“EDL provides technologies and engineering to configure systems that meet special and often unique customer requirements. We listen, study, design, and deliver value.”

EDL's Side Feed Automatic 22-12 System

We at EDL, are always trying to develop new applications for our technology and systems that deliver benefits and value to your customers. Our “System of the Month” is a Side Feed Automatic 22-12 (22” maximum film width and 12” maximum product height) with Integrated Collation System.

This system was configured to wrap 3 and 6 pack configurations of personal care products in a Bull's Eye Enclosure. The system had to accommodate a wide variety of sizes and bottles including, highly unstable pump bottles.

EDL'S WRAPPING SYSTEM

Features and Benefits of the Side Feed Automatic 22-12 Wrapping System:

- *Process up to 20 packs per minute*
- *Compact footprint with casters for mobility*
- *Allows flexibility for a wide range of container sizes*
- *Fast, toolless changeover*
- *Fully integrated collator offers simple changeover*
- *Improved Package Appearance – film enhances product, allowing graphics to shine through*

Approximate Price: \$71,500

Why EDL?

EDL has over 40 years of experience designing and manufacturing shrink bundling machinery. The expertise gained and the technology developed over the years has helped us become an industry leader in innovative packaging solutions.

Bring us your application and let us apply our Innovative Solutions! Remember: We listen, study, design, and deliver value to our customers!

The video for this system mentioned above and many others can be viewed via the "Login" section of the EDL website at www.edlpackaging.com. *Login: edlpackaging Password: clients*. Please contact your EDL Area Sales Manager for further information.

EDL's Standard Equipment

In addition to being known for delivering "special and often unique" packaging solutions, EDL also supplies a line of standard equipment. Our pre-engineered products include inline, side feed, and semi-automatic systems that can be readily applied to meet and exceed the needs of more common applications. Competitive pricing and short delivery lead times are available on all EDL standard equipment.

This month we are also featuring our EDL High Speed Continuous Motion Inline Wrapping & Shrink Tunnel System.

Model: CMILA 22-6 with ST 22-12-78

- Will wrap packs requiring up to 22" film width, 14" product width, up to 24" length and up to 6" high, can be modified to run larger products.
- Speed of up to 40 packs per minute (dependent on pack size)
- Machine footprint size of 50" W x 241" L
- Standard electrical supply of 460 volts, 3 phase, 60 HZ, 60 Amps per phase
- QUICK DELIVERY!

COST: \$86,900

Give our standard equipment line a try. Learn more about our standard equipment at www.edlpackaging.com/edlproducts.html, and then select Bagged, Trayed, or Trayless products. Contact your EDL Area Sales Manager for further information.

A Note From Deanna:

It was great to be a Pack Expo 2008 exhibitor in Chicago. Thanks to everyone that was able to stop by our booth and meet us in person. We are busy working on all of the activity generated from the show!

A Note From Deanna *Continued*:

Happy New Year from all of us at EDL Packaging Engineers! We'd like to extend our best wishes for a happy, healthy – and of course *successful* 2009! May new opportunities abound in the year ahead.
