Welcome to EDL's E-Update Newsletter

For this month's newsletter, we're reviewing one of EDL's stock bundling solutions -- the versatile Flight Bar.

Flight Bar Bundler

The versatile Flight Bar bundler handles a wide variety of consumer and industrial products. The Flight Bar bundler creates a snug sleeve of film around the supported or unsupported products. Reduced film use and less energy consumption create an economical solution for your bundling application.

- Handles random package sizes when using the same film width
- Handles trayed or trayless products
- Especially suited for unstable or unsupported products
- System comes complete with a high efficiency shrink tunnel

The Flight Bar Bundler shown above is a reconditioned unit available for immediate sale

Other sizes available to order

For further information, take a look at a video of the Flight Bar Bundler in action:

SV201 Flight Bar Bundler variety

Other EDL machinery in stock and available for quick turn-around:

Shrink Tunnels
