The EDL Roadmap to Enhanced Machine Safety & Productivity continues....

Time for service?

EDL is committed to meeting your parts and service needs including:

- ***Technical Phone Support***
- ***Documentation Support***
- ***Expediting Parts***
- ***Expediting Service Technicians***

EDL's field service support includes engineering services, training and preventive maintenance services.

Engineering Services include on-site PLC, HMI and Servo unit programming, and all major electrical changes/modifications.

Training Services include on-site machine operation training for both maintenance and operations personnel.

Preventive Maintenance Services include safety circuit verification, mechanical inspection, electrical inspection and recommended spare parts list to prevent costly machine down-time. Recommended Preventive Maintenance visits should be completed for heat tunnels once per year, and for bundlers and wrappers twice per year.

Call us at 920-338-1842 ext. 109 or e-mail us your parts and service requests at parts@edlpackaging.com.
